

**100% NATURAL
EARTH FRIENDLY
NON TOXIC
BIO DEGRADABLE**

CITRUS RELEASE

ENVIRONMENTALLY SAFE ASPHALT RELEASE COMPOUND

- * **Safe, highly effective, environmentally friendly asphalt release for use in asphalt truck beds, other paving equipment and the removal of asphalt tars from truck finishes and tools.**
- * **Contains no toxic petroleum derived from fuel oils or chlorinated solvents that are not allowed to ground, in ground water or sewers.**
- * **It is pure d-Limonene or orange oil. A non-toxic natural hydrocarbon from citrus fruit peelings.**
- * **A superior release for all types of asphalt paving materials. This release will not effect the bonding of asphalt to paving surfaces.**

DIRECTIONS:

- " **COMBUSTIBLE SOLVENT! Do not use near fires, open flames or other sources of ignition. Do not dilute the release compound with petroleum solvents or kerosene.**
- " **Use the same application techniques, fire safety procedures and equipment used with petroleum based solvents releases.**
- " **For best results, apply a uniform coating of the release compound to the truck bed just before loading the asphalt mixture. Do not coat the bed unless it can be loaded immediately.**
- " **If dry spots appear on the bed before loading, the surface must be re-coated with release or sticking may occur.**
- " **This release is slowly volatile and does not effect bonding or physical strength of the asphalt mix.**

FOR INDUSTRIAL USE ONLY

CAUTION: Keep out of the reach of children. Contains pure d-Limonine or orange oil. Eye irritant. Wash from eyes with water until irritation stops. If irritation persists, see a physician. Wash concentrate from skin with soap and water. Remove and wash contaminated clothing before reuse.
